Fascinating Hospital History

Gerry Holiday kicked off with the first of what promises to be a really interesting season of talks to be given by Lodge members this Masonic year with a fascinating talk about the history of hospitals in Leeds. Tracing back to the first Leeds Infirmary built in the 1771 which was replaced in 1869 by the building which still stands on Great George Street through to the modern-day provision which has hugely expanded and developed. Owing to other commitments only 20 members were in attendance but they missed a treat ! [not to mention a very tasty supper and good social meeting afterwards]. We are already looking forward to the next talk planned for October.
