## St Wilfrid Supporting Yorkshire Cancer Research

Thanks to the Funds raised at this year's very successful social events, St Wilfrid Lodge's Worshipful Master Gerry Holiday was delighted to make donations on behalf of the Lodge to two of Yorkshire's important charities, Yorkshire Cancer Research and Martin House, each receiving £400. Regional Fundraiser Stephanie Jones was able to visit Castle Grove Masonic Hall to accept the cheque in person. A huge 'Thank You' to everyone who has been able to support this year's events and make these donations possible.

Yorkshire Cancer Research are Yorkshire's own cancer charity. They help people in and around Yorkshire avoid, survive and cope with cancer. Their vision is that every single person in every community in and around Yorkshire has the very best chance of living a long and healthy life with, without and beyond cancer. They have committed to investing £100m over the next 10 years to tackle the region's biggest cancer problems. Their goal is to ensure that by 2025, at least 2,000 more people in the region survive cancer every year. Yorkshire Cancer Research work in partnership with researchers, scientists and clinicians, the NHS, Public Health bodies and other charities to make life-changing improvements to cancer outcomes in Yorkshire.

*Dedicated to Yorkshire for ninety years*
